Reds Use Bases Near Formosa

TAIPEI, Formosa (AP)—The Nationalist Chinese Defense Ministry said today the Communists began using their big newly built air base at Luchiao Lukiao, 200 miles north of the Matsus Islands, April 3.

The base is reported the largest and best in the whole of Red China and is usable by every type of plane from jets to heavy bombers.

The ministry also said the Reds airfield at Fochow, 40 miles west of the Matsus and 120 miles northwest of Formosa, is being remodeled. It added there are indications that an airfield at Swatow, 120 miles south-west of Quemoy which is directly across the Strait of Formosa, is being revamped.

The Reds are working toward eventual control of the air over the Strait of Formosa which, if achieved, would imperil Formosa itself.

VAN ZANDT CAN'T COME HERE FOR VFW CEREMONY

Congressman James E. Van Zandt, twice national commander of the Veterans of Foreign Wars, will be unable to be present for the dedication of the new VFW home here May 14, the committee in charge has been notified.

Arthur J. Roth, chairman of the committee arranging for the dedicatory program, said Congressman Van Zandt, who had previously accepted an invitation to speak here on the afternoon of May 14, wrote that "unfortunately a most important committee assignment on May 13 through 15 will prevent my being present." Van Zandt suggested several other past national commanders whom he felt "will be honored to be invited."

Van Zandt is currently in Germany where, as a member of the House Armed Services Committee, he is inspecting military installations and visiting troops.

The tentative program for May 14 calls for Attorney Charles W. Wolf, as chairman of the building committee, to present the key to the new home on E. Middle St. to Francis L. Wisotzky, commander of the local VFW, and T. J. Collingsworth, president of the Home Association. Guests will be introduced and a national VFW official will speak.

Invitations will be sent to VFW and American Legion commanders throughout this area and to local civic leaders. The program will include a buffet supper for the guests, according to the present plans. An "open house" permitting the public to view the new premises will be held.

A printed program will be distributed, with a committee, comprising Mahlon P. Hartzell Jr., John Riddle and W. H. Armor, currently engaged in obtaining advertisements for the program. The publication will give a history of the local VFW, home association and auxiliary and pictures of the officers, home, former homes, championship teams, drill team, etc.

Members of the general committee in charge include Roth as chairman, John Rummel, James Harness, John Hewitt, Clyde Berger and Mahlon P. Hartzell Jr.

"Father, Into Thy Hands I Commit My Spirit"

Seventh Word Of Christ From The Cross

REV. DR. M. R. HAMSHER

By REV. DR. M. R. HAMSHER
Then Jesus, crying with a loud voice, said, "Father, into thy hands I commit my spirit!" Luke 23:46

The love of God is revealed within the whole circle of Jesus' recorded words from the cross. They begin and end with God's most precious name, "Father." They show the Heavenly Father's readiness to care for His own; to forgive the worst of sinners; to bless the Savior's mission of redeeming love with a triumphant consummation; and to open the gates of Paradise to the penitent thief as well as to His Son. God commends His love toward us in the Word of His Son from the cross.

The impulse of human faith in the faithfulness of his Lord led the Psalmist to offer the prayer: "Into thy hands I commit my spirit." Through the centuries since our (Continued On Page 3)

Chairman Asking For R.C. Reports

The Red Cross campaign total has gone past the halfway mark and Fund Drive Chairman Kenneth W. Johns today appealed to district chairmen to turn in all funds in their hands promptly, regardless of whether all their solicitors have made final reports.

The current total is \$8,491.48. "We are very much encouraged by increased donations this year and by gifts from new donors but we cannot tell how close we are to our \$15,493 goal until district chairmen make their reports," he said. No district in the county has yet made final and complete reports to Red Cross headquarters on Baltimore St.

CHARLES YOST HEADS UNIT FOR SONG PROGRAM

Charles L. Yost, principal of the Biglerville High School, has been appointed chairman of the Reminiscent Music Committee of the Gettysburg Fire Department's observance of the 92nd Anniversary of the Battle of Gettysburg.

Chairman Yost will be in charge of the special musical program to be presented on Memorial Field, Gettysburg College campus, Sunday evening, April 3, featuring songs popular during the Civil War years, 1861-1865.

It has been suggested that choirs and choruses be invited to participate in the program which will be of an hour or hour and a half duration. Each choir and chorus, according to Chairman Yost, will be permitted to select its own song. The finale, according to present plans, call for a popular Civil War song to be sung by the combined choirs and choruses.

Plan Broadcast, Telecast

Yost said he will appoint other members of his committee in the early future and that he proposes to invite directors of nearby choirs and choruses to serve on the committee.

General Chairman Raymond Menges, when he advanced the suggestion for such a program, indicated that efforts will be made to have the entire program broadcast and, if possible, filmed for TV telecasts later.

"I believe this committee will be able to attract choirs and choruses from north and south of the Mason and Dixon line so that it will be all-inclusive of a national program," Menges said.

WILL SURFACE TREAT 38 MILES OF ROADS HERE

More than 38 miles of state roads in Adams County will get surface treatment this summer with the work scheduled to start in mid-May.

An announcement from Harrisburg said the state will spend \$42,666 in the road improvement work. Secretary of Highways Joseph L. Lawler has authorized the re-treatment of more than 2,700 miles of macadam roads throughout the state to start in May and continue through the summer.

No List For County

"The program is considered an effective way to preserve and protect highway surfaces," a Highway Department statement said. Bituminous material is applied with the department's own equipment by maintenance crews.

In approving the plans, Secretary Lawler instructed maintenance crews to plan the work so that the least delay to traffic on holiday and weekends will result. The cost for the entire program is estimated at \$3,143,398.50 for the 2,713 miles to be improved. More than 6,000,000 gallons of oil will be used.

Adams County Superintendent Wilbur V. Redding said he could not announce a list of the roads to be surface-treated in this county "for obvious reasons."

Good Weather For Easter

By THE ASSOCIATED PRESS
Pennsylvanians today welcomed the prospect of a bright and warming Easter after nearly a week of weather uncertainties. Rain and blustery winds had created an apprehensive mood, many thousands fearing that sunrise services and traditional strolls in spring holiday finery would be spoiled.

Now, however, the weatherman says don't worry about it. Temperatures generally should be in the upper 60's or low 70's with sunny skies, just what everybody ordered for the Easter weekend.

EASTER SEAL SALE IS ENDING

Easter Sunday brings the annual Easter Seal sale to a close for the Adams County Crippled Children's Society and Dr. Howard S. Fox, seal sale committee chairman, issued a reminder today to countians who have not yet made a donation to the annual appeal for funds.

"We are pleased with the response so far to the annual appeal for funds for the Crippled Children's Society," Dr. Fox said. "It is lighty ahead of the total we had last year on Good Friday and compares well with results of seal sales in other counties of the state."

Miss Elizabeth Evans, society treasurer, said the current total for the sale is \$2,112.

The seal sale is the only regular appeal for funds made by the Crippled Children's Society in Adams County. While a share of the money goes to the state and helps to operate summer camps for crippled tots and other services provided by the state and national Crippled Children's Society, most of the funds remain in the county to buy braces and shoes; provide therapy treatments or transportation to clinics; make summer camping possible for several county children each year and answer other calls made upon the county society.

ADVERTISE IN THE TIMES

SOVIETS WILL VISIT 8 SCHOOLS

NEW YORK, (P)—The Institute for International Education today announced eight American colleges and universities to be visited by 11 Soviet editors arriving here April 19.

Other schools will be added to the itinerary if they agree to receive the Russians. They are the first non-diplomatic Soviet delegation to tour America coast to coast with U. S. government approval since 1946.

Institutions which have agreed to the visit are Columbia, Fordham universities and Hunter College, all in New York City; Stanford University, at Palo Alto, Calif.; the Universities of Chicago, Michigan and New Mexico, and Tuskegee (Ala.) Institute.

Will See Cities

Their tentative itinerary also calls for the Russians to visit Williamsburg, Va.; Montgomery, Ala.; San Francisco; Denver, Colo.; Detroit, and Washington, before leaving for home May 18.

The editors—all men—call themselves a "student" delegation although their ages range from 26 to 39. Eight of the 11 hold senior editing positions with publishing houses, newspapers or magazines whose publications are designed for Soviet youth.

"Top Secret" Label On Mamie's Outfit

WASHINGTON (P)—Mrs. Dwight D. Eisenhower apparently has put "top secret" on her Easter outfit.

The First Lady may be trying to avoid such a situation as she encountered recently at a Washington party. She went wearing a new frock and saw another woman there in the same green-and-blue print. Not a hint will the White House give on what Mrs. Eisenhower will be wearing Sunday. She has spent the week at the Eisenhower's Gettysburg, Pa., farm.

Even for formal dinners at the White House she has waited until almost the last minute to decide which gown to wear.

News Briefs

SCHENECTADY, N. Y. (P) — The General Electric Co., the pioneer in man-made diamonds, now is transforming mountain rock into semiprecious garnet.

ROME (P) — Premier Mario Selva returned to Rome late today from a two-week American visit. An Italian Airlines plane bore him in from New York, where he called the trip a great success.

LAS VEGAS, Nev. (P) — Detonation of perhaps the most powerful atomic device of the 1955 series—a 400-foot tower shot—was postponed today after a weather conference.

Conditions were not acceptable for the explosion, the Atomic Energy Commission said. Another conference will be held tonight to determine if weather conditions improve.

WASHINGTON (P) — The White House said President Eisenhower believes "technical military secrets" have been made available "to the enemy" through publication of such information in this country.

James C. Hagerty, presidential press secretary, told newsmen that Eisenhower is disturbed about the situation. Hagerty declined, however, to discuss the question of whether Eisenhower's views are related to new Defense Department information control directives put into effect last week by Secretary Wilson.

PANMUNJOM, Korea (P) — The United Nations Command today charged the Communists with three air violations of the truce, rejected 18 Red charges of Allied violations and proposed cutting the joint armistice observer teams from six to four.

The Allied secretary of the Joint Military Armistice Commission secretariat, U. S. Navy Capt. William C. F. Roberts, said two Communist planes penetrated as far as Seoul, the South Korea capital, on March 30. Two other violations occurred March 2, he said, when planes trespassed beyond the truce zone near Munsan and Panmunjom.

HARRISBURG (P)—Representatives of organized labor in Pennsylvania were reported today to have told Gov. George M. Leader they would oppose a state income tax that hits low income groups.

A group of labor leaders conferred with the governor yesterday afternoon at the Executive Mansion on the tax question but declined afterwards to talk about it. The governor also withheld comment.

ernment have been at bitter odds for months.

Yesterday, an estimated 100,000 marched in the traditional Holy Thursday parade in Peron's capital. It was the first religious procession allowed in Argentina in four months.

The procession was orderly, but marchers defied government orders to keep off main streets and paraded directly to Buenos Aires Cathedral.

Tonight in Rome youth of the Catholic Action organization hold a torchlight Way of the Cross on the Palatine Hill, near Rome's ancient Colosseum.

Late tonight, in Catholic churches everywhere, the purple mourning shrouds will be removed for the first time from the sacred images and alters they have covered during the 40-day Lenten period. Worshippers coming into the churches tomorrow morning will find the altars and images again decked with flowers.

A High Mass will be celebrated tomorrow in St. Peter's Basilica and when it reaches its "Gloria," about 11 a.m., the bells of St. Peter's will ring out the joyous announcement of the Resurrection. The Catholic observance culminates Sunday with the appearance of Pope Pius XII on the balcony before St. Peter's to give his annual Easter blessing to the city and to the world.

Seventh Word Of Christ From The Cross

(Continued from Page 1)

Savior filled this prayer with deeper meaning, many have made this Scripture a "pillow prayer" of trust in a Father's watchful care through the night. When the night of death draws near, it may be human to fear the Valley of the Shadow. The gracious Father, however, through the cross of Christ, has opened the infinite resources of Heaven to those who trust Him.

The assurance of Jesus' last word on Calvary has moved many to use it as their "pillow prayer" in the hour of death. Stephen, the first recorded martyr, John Huss, arriving on the Island in the Rhine where he was to be put to death for his faith; Columbus, as he was about to set sail for the new and eternal world; Bishop Ridley, at the cruel stake;

Luther, whose Gospel lives as a Gospel made vital through trust in a loving God—all were given grace to make this prayer of trust their own. And so may we.

This last prayer of Jesus from the cross, however, is more than our own can ever be. For it is Christ's assured declaration of His triumph over sin and death. It reveals His certainty of oneness with the Father—a final attestation of His testimony in the Upper Room, in the high-priestly prayer of our Lord. His work for us is done. The Son of God is ready to go home to the Father's house. Truly this was a "Good Friday."

Today's Talk

THE PENALTY WE PAY
There are a multitude of things for which we have to pay nothing. They come to us as free gifts. There are others, however, for which we have to pay a penalty. For the privilege of living to a ripe old age, we pay in loneliness, for so many of those whom we have known and loved have gone to their reward. We miss them and our memory of them is something very precious.

We pay a penalty for fame, for riches, for unusual attention on the part of others. We, who receive, must bargain for the price that must be paid. It may be too much or too little. We have to figure that out for ourselves. Carnegie got to worrying over the huge fortune he had acquired and decided to give all, or most of it, away. So he began establishing libraries all over the country—a very worthy thing to do. Millions down the years will bless him for his generosity. I have an idea that he must have considered this act as paying him far more than any other investment.

Health is wealth. It is even more—it is happiness at any age. If we abuse this wonderful body of ours we have to pay a very big penalty, and that penalty may be more than we can pay if we have neglected our body and underestimated its worth to us. Actually our health and our success, as well as our happiness, are all tied up in the kind of a body we decide to own.

I met two champion golf players recently. Neither used tobacco nor drank anything intoxicating. They told me they did not want to lower their opportunity to keep getting better. We cannot have all the things we wish when we decide upon a course that calls for sacrifice for steady nerves and mental control of our faculties. Athletes, to gain top ranks, know they must respect their bodies and keep them clean, strong and alert.

Tomorrow Mr. Adams will talk on the subject: "Good Talk" Protected, 1955, George Mathew Adams Service

NO VACANCY
The house has been painted anew. The rooms are in order again. The roof has been weather-proofed, too.

It will certainly keep out the rain. It is ready for young and for old. As the tenants arriving will learn.
It isn't put up to be sold; It's for martins who soon will return.

The rent for its use is the same. "No charge" is the custom each year.
He and she an apartment can claim.

When seeking a home they appear.
Each place has an excellent view. There's nothing the tenants will lack.
Air-conditioned the building is, too.
They'll find when the martins get back.

There's a porch they can use through the day;
For the young there's safe shelter inside.
For their needs, be whatever they may,
The landlord has thought to provide.

"First come; first to choose," is the way.
Down the ages it seems to survive,
And we'll know spring is with us to stay
As soon as the martins arrive.

EDEN SHIFTS 9 JOBS; MAY CALL VOTERS MAY 26

By STANLEY GODFREY
LONDON (P)—Britain has a slightly younger Cabinet today.
Prime Minister Eden's first government shakeup shifted Defense Minister Harold Macmillan to the Foreign Ministry and elevated Selwyn Lloyd from supply minister to the defense job.

The new appointments were announced last night after Eden's first cabinet meeting since he took over Wednesday from Sir Winston Churchill. They cut the average age of the 18 ministers from 58½ years to 55½ years. Eden himself is 57.

The reshuffle involved nine other government posts, including one Cabinet job, two non-Cabinet ministries and six lower level appointments.

Hint Election May 26
The comparatively small number of changes—generally considered about the fewest Eden could make without retaining the Foreign Ministry—increased still more the speculation that he may be planning to call a general election soon, possibly May 26.

Macmillan's appointment to the Foreign Ministry, the post Eden formerly held, had been widely predicted. Like Churchill, he is half American. His mother is the former Helen Tarleton Belles, of Spencer, Ind.

A diplomatic trouble shooter during World War II, the handsome, 60-year-old Macmillan was named housing and local government minister when the Conservatives came to power in 1951. His success at that job led to his appointment to the Defense Ministry last October.

Good Friend Of U. S.
Like both Eden and Churchill, he is a staunch friend of the United States and a believer in step-by-step diplomacy.

Lloyd is a genial, bustling lawyer who made his mark as one of Eden's two ministers of state at the Foreign Office. Before taking over the Supply Ministry six months ago, he was Britain's chief delegate at the United Nations. There he gained renown for his ability in debates with Russia's Andrei Y. Vishinskiy.

The other Cabinet change involved the secretaryship for commonwealth relations. Viscount Swinton, 70, retired from the post and was replaced by the Earl of Home. Swinton was awarded an earldom, a step up in the peerage, for his work in Churchill's administration.

TAXLESS PAY CHECK
BATON ROUGE, La. (P)—Forty-two years ago C. J. Smith, now a Baton Rouge oil refinery employee, worked for one day as a fireman on a Kansas City Southern Railway Co. locomotive at Shreveport, La., and didn't get paid.

Recently he wrote the company about it and soon received a check for \$2.90—with "no deductions."

"I just wanted to see what would happen," Smith explained before turning the money over to charity.

A recent survey indicates that 35 million Americans take a break for coffee some time during their working day.

Bullet Baseball Team To Meet Colgate U. On Local Field Saturday At 3 P.M.

Gettysburg College's baseball team will make its home debut Saturday afternoon at 3 o'clock when Colgate University, of Hamilton, N. Y., will be met here.

Arrangements for the game were made last week, Colgate being enroute home after a swing through the south. The Red Raiders were rained out of a number of games in the south after defeating the University of North Carolina 6-5.

Saturday's game will be the second of the season for Coach "Hen" Bream's Bullets. Last Friday the locals got off to flying start by topping Elizabethtown College on the latter's field 4-3.

Joe Bierly, Junior right-hander, who turned in a brilliant two-hit, no-run relief pitching role in four innings against Elizabethtown, is expected to draw the hurling assignment against Colgate.

Other starters for the Bullets will probably include Art Hendley, 2b; Kings Van Nest, rf; Oakie Schalk, 1b; Ken Polak, cf; Bob Swenk, lf; Fred Alleva, c; Bob Gilchrist, 3b, and Don Woodington, ss.

Joe Poulk, who received credit for the win over Elizabethtown, Wally Kuligowski, John Schleicher and Gareth Biser will be available for relief mound duty.

Next week the Bullets will play at Western Maryland on Thursday and then meet Muhlenberg at Allentown, Saturday.

TIGER JONES TO FACE JOHNSON

ST. LOUIS (AP) — Ralph (Tiger) Jones tonight risk his record of never having been knocked down against harder-hitting George Johnson, a counter puncher with a fast pair of hands.

Jones, a New Yorker noted for the way he keeps boring in on his opponents, was rated an 8 to 5 favorite over Johnson, of Trenton, N. J., for the ten-round middleweight bout at the Arena. The fight, sponsored by the International Boxing Club, will be nationally televised (NBC, 10 p.m., EST).

Johnson, of Seminole Indian ancestry, has won 30 of 35 professional fights, 21 of them by knock-out. He has been stopped twice.

Jones, a good combination puncher, has scored only eight knock-outs in winning 33 of 49 pro fights. He has lost 13 and fought three draws. The only time he ever was stopped was on a cut in a bout with Henry Burroughs in 1951.

Nelson Turns In Strange Opener

AUGUSTA, Ga. (AP)—Byron Nelson put together one of the strangest rounds of golf anyone could remember in the first round of the 19th Masters Tournament yesterday.

The Roanoke, Tex., veteran, who won the 1937 and 1942 Masters, had only four pars during his round of 37-35—72—and all of them came on the front nine. He had two birdies and three bogies going out and five birdies and four bogies on the back nine.

Emmitsburg

Mr. and Mrs. Charles Hoffman, W. Main St., who have been spending the winter months in Leesburg, Fla., with their son-in-law and daughter, Dr. and Mrs. Marion O'Kelly, recently celebrated their golden wedding anniversary.

Paul Harner, son of Mr. and Mrs. Charles A. Harner, who was graduated recently from the University of Maryland, has accepted a position with Douglas Aircraft, Los Angeles. He was accompanied to the west coast by his father.

Mr. and Mrs. William Fraley and Marjorie and Carl Crist are spending the Easter holidays with relatives in Cumberland.

Mr. and Mrs. T. W. Green, Sophia, W. Va., are visiting their grandson and family, Mr. and Mrs. Glenn Gillespie and daughters.

Mr. and Mrs. Louis H. Callahan, Baltimore, who have returned from a five weeks' visit with their son-in-law and daughter, Mr. and Mrs. William Walsh, Fort Lauderdale, Fla., will spend Easter Sunday with Mrs. Callahan's mother, Mrs. Louise Warthen, near Mount St. Mary's.

GRANDSTAND MANAGER

C. William (Bill) Duncan, member of the news staff of the Philadelphia Inquirer and native of Gettysburg, will again be Philadelphia's television "Grandstand Manager" this season.

Duncan will telecast his comments between the games of Sunday double-headers from Connie Mack Stadium over WFIL-TV and WPTZ, as he did last summer.

LINCOLN TRACK SIGNS UP WITH NASCAR OUTFIT

Promoters of Lincoln Speedway, near Abbotstown, have announced they have signed a sanctioned agreement with NASCAR (National Association for Stock Car Auto Racing Inc.) — the world's largest stock car racing association, for the 1955 season.

After several months of negotiations, papers were signed by the Speedway promoters with Ed Otto, vice president of NASCAR, and Bill Clagett, chief NASCAR representative in this area. Simultaneous with the announcement of the NASCAR tieup, officials of Lincoln Speedway revealed that they will open the 1955 campaign on Friday night, April 29.

Last year, NASCAR sanctioned 2,200 meets throughout the United States, Canada and Hawaii, and distributed well over \$2,000,000 in purse money to the drivers and over \$90,000 in point fund money to the leading pilots at their various tracks. All of the race programs will be in the Sportsmen's Division class and local promoters will be issued the first available date for NASCAR's nationally known Grand National Circuit Championship 200 lap for late model cars, 1953 to 1955.

Heading the list of local favorites to be seen in action under the NASCAR banner include Fred Jones, Walt Regan, Eddie Adams and Buck McCardell. NASCAR entries from the Maryland and Pennsylvania areas include Johnny Roberts, 1953 national NASCAR Sportsman's champion and 1954 runner-up; Walt Martin, Nick Ess, Gus Wilson, Ernie and Bob Tester and hosts more.

Coinciding with the signing of Lincoln Speedway to a NASCAR agreement, promoters of Lancaster and the Susquehanna Speedway in Harrisburg announced that they will also run under NASCAR sanction this year. Lancaster will open Saturday night, April 30 and Susquehanna on Sunday afternoon, April 17.

Only three of the 16 pitchers who probably will be on the mound in next week's major league openers have gone a full nine innings in this spring's exhibit games—and only one of the three came off with a victory.

Brooklyn's Carl Erskine and Philadelphia's Robin Roberts are the only National League openers to go all the way. In the American League, Cleveland's Bob Lemon is all by himself, although New York's Whitey Ford entered the ninth but left with nobody out in a losing decision.

Erskine alone won, shutting out Washington 6-0 with difficulty Wednesday.

Roberts went nine Sunday, but lost to Boston 4-2. Lemon missed against the New York Giants 5-1 Tuesday.

Here's what the probable opening day pitchers who saw action yesterday did:

Boston — Frank Sullivan went eight innings, allowing one hit in the first four frames, but missed the decision as Philadelphia won in the 10th 4-3.

Chicago — Virgil Trucks (19-12) went seven innings against St. Louis, left with a 6-5 lead after a four-run fourth in which the Card's Bill Virdon hit a three-run homer. Sox won in ninth 7-6.

Kansas City — Alex Kellner (6-17) went seven innings, gave up nine hits in 5-2 defeat by Norfolk of Class B Piedmont League.

NATIONAL LEAGUE

Cincinnati — Art Fowler (12-10) worked last five innings but missed decision in 9-1 victory over Lynchburg, Class B Piedmont League.

Philadelphia — Robin Roberts (23-15) pitched seven innings, gave up six hits and left trailing 2-1 on Norm Zauchin's two-run homer as Phils beat Boston in 10th 4-3.

St. Louis — Brooks Lawrence gave up three runs in fifth before leaving with 4-3 lead over White Sox in game won by Chicago 7-6.

In other games yesterday, Baltimore beat Pittsburgh 2-1 and the Giants beat Cleveland 6-5 to end their exhibition series with nine victories apiece.

OPENING DAY HURLERS HAD "TOUGH" LUCK

Girl Swimmer May Capture Four Titles

DAYTONA BEACH, Fla. (AP)—Tall, trim Shelley Mann, a girl who couldn't swim a stroke five years ago, is likely to win four national titles by the time the 1955 Women's AAU Indoor Meet ends here tomorrow.

She took two yesterday, successfully defending in the 400-yard individual medley and stepping up for the first time as 100-yard freestyle champion.

This 17-year-old high school senior from Arlington, Va., who swims for the Walter Reed Hospital, is favored to repeat in the 100-yard backstroke today and the 100-yard butterfly tomorrow.

The diminutive senior, who tallied a dazzling 1,003 points in his last season, was joined on the first team by Gerry Berger of Fountain Hill, Paul Kelso of Darby, Jay Metzler of Donegal Joint, and Gary Peters of Mercer.

Both Hennon and Metzler are repeaters for first team honors on the sixth All State team for schools with enrollment of less than 500. Hennon has made the team three years running, while Metzler won top honors last year while playing for Mt. Joy. The Mt. Joy school district this year joined with two other Lancaster County districts to form Donegal.

Squad Is Short

This year's squad is one of the shortest in the history of the selections put probably is the highest scoring, thanks to the efforts of Hennon, who has amassed a 2,376 four-year high school total—an unofficial state record for the smaller schools.

Including the 6-5 Metzler, the squad averages just over six feet tall, with Hennon the shortest. Only Metzler and Peters, 6-2, are over six feet.

But that point making of the 1955 squad is unsurpassed, averaging well over 600 points apiece for the season.

All Pennsylvania high school basketball players enrolled in schools playing in B and C competition were eligible for the team. Points were tabulated on a basis of 10 for first choice, 9 for second choice, etc.

Beside Hennon and Metzler, Kelso and Peters have received All State notice in the past. Both the Darby leading scorer and the Mercer sparkplug won honorable mention in 1954. This is Berger's first All State recognition.

Most of this year's first team players have faced each other during the season, generally in the state playoffs.

Scoring Records

The scoring punch: Hennon, 1,003; Berger, 597; Kelso, 594; Metzler, 600; Peters, 609.

Th Players:

Hennon—The 5-9 standout was the prime mover in heading Wampum to the 1955 Class B state championship. Established WPIAL scoring marks in nearly every category. Better than 80 per cent accurate on fouls, topped his team in defense, was a leader on rebounds, despite small size. A deadly shot from the outside.

Berger—This 5-10 senior paced Fountain Hill to the Eastern B championship and playoff against Wampum. A sharpshooter from the outside and an excellent drive-in shot, Spearhead of Fountain Hill's offensive mixture of fast break and passing. Was outstanding in playoff games, averaging 27½ points a game, including 29 points against Donegal.

Kelso—The big gun of the Darby attack, the 5-11 senior was captain of the Darby squad for the past two years, unusual in high school basketball. Scored more than half of his team's points during the year with a total of 594. Credited by sportswriters in the suburban Philadelphia area as being virtually the whole Darby team and had wide acclaim despite his 12-10 won-loss record. Averaged 27 points a game and led the rugged Sec. 2 of the Suburban Philadelphia Conference in scoring the past two seasons. Can shoot with either hand and is deadly from the outside.

Metzler Biggest Man

Metzler — Biggest man on this year's All State, he averaged nearly 25 points a game in leading his team undefeated into the game against Fountain Hill for the Eastern regional championship. As a member of last year's Mount Joy team, he rewrote three PIAA Class C tourney records, and continued in form through the 1954-55 season. A crack shot from the outside, he hit on close to half of his field goal tries.

Peters—Averaged better than 21 points a game and was top rebounder for his Mercer club which met Wampum for Western regional honors. Played center although not the tallest. Averaged better than 40 per cent of his field goal tries and better than 70 per cent from the foul line. In a playoff game he scored 36 points against Girard, the Dist. 9 champion.

Hennon, Wampum Cage Star, On Little All-State Team For Third Straight Year

By RICHARD L. GRAVES

HARRISBURG (AP)—Don Hennon, Wampum High School's and the state's leading point maker, led the 1955 balloting to become the top vote getter in the history of State basketball team.

Globetrotters In Kansas City Tonight

KANSAS CITY (AP)—The Harlem Globetrotters, as in previous tours with College All-Stars, are running up a lopsided victory margin against the collegians in their present swing around the country.

Tonight the two teams meet in Kansas City's Municipal Auditorium with the Globetrotters holding a 10-5 edge in games played.

Walter Dukes, former Seton Hall center, dumped in 25 points to lead the Globetrotters to an 84-73 victory before 10,326 spectators at Denver last night. The All Stars' offensive was led by La Salle's All America Tom Gola with 20 points.

Each team was limited to three hits. Bob Megonnell and Ronnie Weigle divided the hurling for York Springs with the latter being charged with the loss. Charlie Sherman hurled the entire game for the Bubblers.

Coach Pete Kemper's Springs led 2-1 going into the final frame. Ed Dasher for the Bubblers got on via an error, Don Sherman doubled and Charlie Sherman walked to load the bases. Dean Leib pounded out a fly to admit Dasher and a single by Ronnie Clark pushed over D. Sherman and C. Sherman.

A double-play halted York Springs in its half of the inning. A double by Jim Koons and triple by Ron Griffin produced a run before the twin-killing broke the rally.

The loss was the second in two games for York Springs. Boiling Springs has now won four of eight contests.

Next Tuesday the teams get the jump on other Adams County League schools by opening their league campaign at Boiling Springs.

Simmons Back; Lopata Hurt

PORTSMOUTH, Va. (AP)—The Philadelphia Phillies got back the services of one key player by losing those of another in yesterday's 4-3 win from the Boston Red Sox.

Southpaw Curt Simmons made his first spring appearance on the mound, after complaining of arm trouble, and appeared to have recovered from his ailment. But catcher Stan Lopata, the team's leading hitter in training, was sidelined when he pulled a knee ligament. It was not known how long he would be lost to the club.

Pot Luck

Just a reminder that April 15 is almost here! Can't imagine anyone bothering with income tax before April 14. So if you have that little chore before you, here's some advice...

First you need two dozen (very sharp) pencils, two bottles of aspirin, all your pay check statements, your endorsed checks, two gallons of black coffee, your withholding tax statement, a ream of paper and a typewriter...

Now to begin... Drink a cup of coffee and take an aspirin. (This settles your nerves!) Check your old pay check stubs to see if everything is in order. Don't overlook a thing, it could be important... Have another cup of coffee and an aspirin. (This one is to keep you awake.) When you finish, check your endorsed checks for any donations that can be deducted. Better have another cup of coffee and another aspirin. (This is to keep you from going mad.) By the time you finish this, you should be weary. But don't give up—there's not much time...

Now read the Federal Income Tax booklet which contains the tax forms. (Do what was prescribed before to clear your mind.) If there's something you don't understand in the booklet, forget it, it could cost money. Twelve hours later, you are ready to start the forms. Three hours pass and there you are. Finished in record time and it wasn't even hard...

Littlestown High School Thunderbolts becoming a dangerous team. Still think the 'Bolts could have beaten Hanover if the weather hadn't kept them from practicing...

Jim Zulick and Stan Mummert arguing over base hits, pitching and such at Marvin's early Thursday morning. Now here's a question: "Why do people, especially high schools boys, hate to get up on a school morning but when they can sleep on a day off they beat the birds out of bed?"

John Crow, Gettysburg Jaycee president, running all over Littlestown Thursday morning...

Speaking of the Jaycees, the Littlestown group had a terrific ladies' night banquet Monday evening...

Patsy Crouse and Esther Feaser told fortunes and made predictions of things to come. Gerald Daley enjoyed the food so much he had seconds and then told the best joke of the evening...

Don't forget the GOC meeting April 20, the LHS baseball games this week and the Good Will Day drawing Saturday evening...

OUR ASSURANCE OF ETERNAL LIFE

I Corinthians 15:3-10, 53-58

Key Verse: I am the resurrection and the life; he who believes in me, though he die, yet shall he live, and whoever lives and believes in me shall never die John 11:25-26.

If the Cross on Calvary had marked the end of Jesus' life and ministry, there would be no assurance of eternal life. But we have the glad confession, "Now is Christ risen!" and upon the fact that Jesus rose from the grave that first Easter is built the Christian church. We may summon men everywhere to join in the exultant cry, "O death, where is thy sting? O grave, where is thy victory?"

One of the most thrilling chapters Paul ever wrote is I Corinthians 15 in which the Resurrection of Jesus is more completely

described than anywhere in the Scriptures. Of course the Pauline interpretation is superb. After the opening verses in which the great event is described, the fact is substantiated by Jesus' various appearances — some to individuals, others to groups. Then, the Lord's last appearance to Paul on the Damascus Road is thus described (15:8-10): "Last of all, as to one untimely born, he appeared also to me. For I am the least of the apostles, unfit to be called an apostle, because I persecuted the church of God. But by the grace of God I am what I am, and His grace toward me was not in vain."

The changed Paul and the changed lives of thousands who have confronted their risen Saviour is sufficient proof of the Resurrection; these evidences of new life "in Christ" are more powerful than the reports of the empty

tomb. Dr. George A. Buttrick in an article for the Associated Church Press entitled, "Eternal Life: Longing and Fulfillment" says: "And an instance, whether one or many, is better than any argument. A fact is better than the largest web of supposition. An event is better than the shiningest hope. The event happened: Out of it was born, 'begotten anew,' both the New Testament and the Church. Christ is the opening of the cave of mortality."

Christ's victory over death as-tounded not only the Roman officials in Jerusalem, but His best friends. The latter were not prepared for the sudden turn of events even though their Lord had said, "I am the resurrection and the life." They fled or hid after the crucifixion and could scarcely believe the reports of the women on Easter morn. After seeing Him gain, this time with a new radiance, they realized the greatest of miracles had occurred. And their reaction? Bewilderment was soon replaced by a deep joy and spiritual strengthening. They were ready to "go and tell" the story of the Resurrected Lord, no matter what the consequences might

be. And all but one of the eleven disciples died as martyrs. But the victory was theirs!

The living hope which comes to us and to all believers through the Resurrection of Jesus Christ is, according to I Peter 1:3, 4, "an inheritance incorruptible, and undefiled, and that fadeth not away, reserved in heaven for you." This assurance of eternal life is entirely unearned; it is God's legacy through Christ. If we lay hold of this hope, live close to Christ, and accept His way, we can claim our inheritance. In summing up his account in I Corinthians 15, Paul concludes, "Therefore, my beloved brethren, be steadfast, immovable, always abounding in the work of the Lord, knowing that in the Lord your labor is not in vain."

Nature repeats itself each year with its cycle of death, decay, new life, bright blossoms, ripe fruit. There is no real, awesome death, if we truly believe, Jesus Himself gives this certainty, "Because I live, ye shall live also" (John 14:19). How gladly we should accept this assurance! How earnestly ought we confess our sins and repent of them! In the

dawn of another Easter, let us forget the shadows of sin and death, and listen to the gentle voice of the Saviour Who, forgiving us as He did His wavering companions, returns again, saying, "Peace be unto you!" With Christ in us and with us there can be no doubt about the promise of everlasting life.

EVERYONE WELCOME

The bell rings, and its message is a clarion call across the countryside. Beneath it, white lilies touched by the sunlight look upward toward a cloudless sky.

This is Easter . . . the golden day . . . the day of promise and joy. This is the time when God proffers the great gift of eternal life . . . when he shows, in the lesson of the Tomb . . . that there is no death.

There is no more joyous occasion in the Church than Easter. Against the setting of Spring, it touches the land with beauty, bringing a new upsurge of hope, thrilling the young, comforting the old. Easter is the time to rededicate your faith . . . to listen again to a wonderful promise . . . to receive again a glorious gift. Start attending Church regularly by beginning at Easter.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Scribe Picks Yanks And Dodgers To Win; Each League Has 3 Contenders

By FRANK ECK
AP Sports Editor

Three-team pennant races in both leagues is the forecast for major league baseball this season. The writer, after a month in 13 Florida training camps, sees the New York Yankees taking the American League bunting after a hectic scramble with Cleveland and Chicago.

In the National League the Brooklyn Dodgers are fancied over the Milwaukee Braves and the world champion New York Giants.

It is the feeling among the majority of baseball managers and coaches that the Giants cannot expect a repeat performance from the bullpen which accounted for 22 victories and saved numerous other games.

These same insiders feel that Cleveland is a slow ball club and will get sterner competition from Boston, Washington and Baltimore, three teams it treated horribly last season.

In the American League, the Indians, Yankees and White Sox are far ahead of the field.

Turley Big Aid

Casey Stengel bids for his sixth flag in seven attempts with a pitching staff featuring Whitely Ford, strikeout king Bob Turley and Bob Grim. Turley, obtained from Baltimore where he won 14 games for a seventh-place team, is seen as a big winner.

However, Casey warns "if anything happens to one of these three I'm in real trouble." Behind them the master manipulator has Tom Byrne in the No. 4 slot with Eddie

Lopat as No. 5 spot starter, followed by Tom Morgan, sore-armed Don Larsen and a surprise starter in 21-year-old Johnny Kucks, back from the Army after a freshman 19-6 record at Norfolk in 1952. The kid looks great.

Bill Skowron will play first base against all pitching and it would not be surprising if he fought for the batting title. His fielding has been terrific. Rookie Elston Howard, most valuable player in the International League, can catch or play the outfield. He may alternate in left with Irv Noren. He is the first Negro to make the Yankees. Only infield change finds ex-Oriole Bill Hunter replacing Phil Rizzuto, now wearing glasses, at shortstop.

Indians

If Ralph Kiner, obtained from the Cubs, plays regularly, Al Lopez will have a slow fielding and running team. The same applies at first base where Vic Wertz will hold forth. Cleveland's brightest rookie is lefty Herb Score, 21, with a 22-5 Indianapolis record and 330 strikeouts in 251 innings. Getting slugger Kiner, some experts feel, will not offset the Yankee addition of Turley, Howard and Kluck.

White Sox

Marty Marion believes Chicago can win all the marbles if Walt Dropo can drive in 100 runs and George Kell plays third base regularly. Dropo was obtained from Detroit for bad-kneed Ferris Fain and he could supply the big power the Pale Hose have been lacking.

Red Sox

Boston will have a strong pitch-

ing staff in Mike Higgins' first big league season as manager. The ace, replacing Mel Parnell, could be sophomore Frank Sullivan, a 15-game winner as a rookie. Sullivan, returning serviceman Dick Brodowski, Tom Brewer, Ivan DeLoach, Hersell Freeman, Russ Kemmerer, Willard Nixon and Leo Kiely all are under 27. Norm Zaichin, 25, up from Louisville, figures to share first base with Harry Agganis. Zaichin hit 18 homers and had 118 runs batted in with a 289 average.

Tigers

Bucky Harris steps in with a fairly set team in Detroit. His bright spots are left fielder J. W. Porter, a hard hitter back from the service, and shortstop Harvey Kuenn who, off his last half spurt, is fancied for the hitting crown. Much depends on how Ferris Fain, with a bad knee, holds up at first base. Pitching help for Steve Gromek and Ned Garver is expected from reliever Van Fletcher, bonus baby Bob Miller and Frank Lary (15-11) at Buffalo.

Senators

Things may be quiet for Charley Dressen in the second division. His Senators will be about the same except that Bob Kline, a 319 hitter at Birmingham, will get a chance to play short. A good looking rookie is 6-foot-4 Ted Abernathy, 22, a lefty hurler.

Orioles

Baltimore, in its second season back in the majors, will find many new faces under Paul Richards. Prize prospects appear to be catcher Hal W. Smith and first baseman Gus Triandos. Smith led American Assn. hitters with a 350 mark at Columbus, Ohio. Triandos, a former catcher, batted 296 with 18 homers at Kansas City in the American Assn. Richards' problem will be to patch up an infield and

weld a pitching staff comprised of castoffs.

Athletics

Kansas City gets major league baseball but most of it will be supplied by the opposition, if the former A's of Philadelphia can be taken off their 1954 record. Rivals believe the A's will have to make a package deal for their two proven 1954 rookies, pitcher Arnold Portocarrero and third baseman Jim Finigan.

Dodgers

The Dodgers, with Walter Alston's inexperience rubbed off, have an abundance of proven pitchers in Don Newcombe, Billy Loes, Carl Erskine, Johnny Podres, Russ Meyer and Joe Black. Add to this a rookie standout in Karl Spooner, up from Fort Worth (21-9), and Brooklyn will be their ace. They have the hitting, now that Roy Campanella's hand is well. Look for hard-hitting Don Zimmer to replace Don Hoak at third base with Jack Robinson and Sandy Amoros, a lefty swinger, alternating in left field. Brooklyn could very well win close to 100 games this time.

Braves

With Bobby Thomson's bat back, Charley Grimm has a solid team in Milwaukee. Without injuries, especially to a thin infield, the Braves could win the flag. Better hurling is expected from Chet Nichols and Bob Buhl, Catcher Jack Parks (.312 at Atlanta), first baseman George Crowe (.334 at Toledo) and outfielder Church Tanner (.333 at Atlanta) have been added to strengthen the bench.

Giants

With 13 teams in Florida and the champion Giants in Phoenix it is only natural for the majority of insiders to put a rap on Leo Durocher's team. The feeling exists that relief pitchers Marv Grissom

and Hoyt Wilhelm were as responsible for the 1954 upset as were Willie Mays, John Antonelli, Don Mueller and Alvin Dark. Few can see the bullpen artists repeating their phenomenal success.

Durocher appears to be going with a set team but one which could use more hitting at five positions.

Cardinals

Eddie Stanky says he's going with only one rookie, Ken Boyer, at third base. However, it would surprise nobody if Stan Musial were moved in to first base, permitting Bill Virdon, International League batting king, to take a place in the outfield. Stanky plans to start with Joe Cunningham at first.

Relief pitcher Frank Smith, Larry Jackson from Rochester and a better Tom Poholsky may help the Red Birds in their weak spot — pitching. If Jackson or Poholsky could win 18 games — they have the tools — the Cards could finish first and Stanky would get a new three-year contract. He'll be shooting the works to retain his job.

Redlegs

Birdie Tebbetts is also chirping for pitching to go with a hard-hitting Cincinnati nine. In Ted Kluszewski he could have the batting champion.

With Ray Jablonski at third he now has four fellows who either hit in 100 or more runs or batted above .300. Gus Bell drove in 101 runs and hit .299 while Johnny Temple batted .307.

Phillies

Mayo Smith expects no wonders his first year as Philadelphia pilot. Most of his players are strangers to him. Earl Torgeson is the only one he has ever seen play a full season. That happened in 1946 when Torgy played first base at Seattle while Smith was playing the outfield for Jim Turner's Portland team. The Phillies, shy on hitting, may get some help in that department from Bob Bowman, 20 homers and 282 in 152 games for Syracuse. Jim Owens, 17-9 with a 2.87 earned run record at Syracuse, could help in pitching.

Historic Arsenal Chosen As GOC Post

HARPERS FERRY, W. Va. (AP)—The old U. S. Arsenal, moss-covered and historic, is once more a link in the nation's defense system. Bradley D. Nash, deputy assistant secretary of the Air Force, whose home is near here, has chosen the arsenal for a Ground Observer Corps post.

Back in 1859, when the arsenal became nationally famous, it stood in downtown Harpers Ferry. It since has been moved to a high hill where it commands a view for miles.

And it has a new name. They call it John Brown's Fort. For this was the building the Kansas abolitionist captured in 1859 in his ill-conceived plan to get guns and ammunition with which to arm Negro slaves for an uprising.

SWITCHBOARD OF CAPITOL IS TOUGH JOB

By JANE EADS

WASHINGTON (AP) — Chief operator Nina Thomas, who has helped man the switchboard at the Capitol for 42 years, after using her voice all day during the week, sings in a church choir every Sunday.

Miss Thomas, as calm and matter-of-fact as a woman who has nothing to do but sit by the fireside and crochet a tidy, is in charge of more than 70 operators who on busy days handle more than 40,000 calls for members of Congress. She and her girls know the exact numbers instantly of some 2,400 extensions connecting with the offices of senators and congressmen, committees, other government agencies, even some residences.

It's part of their routine to memorize a number, link it with a name, a state, and of course the party affiliation. A good memory, in fact, is one of the first requirements for a "hello girl" on Capitol Hill, says Miss Thomas. Courtesy, patience, understanding and a pleasing voice are others.

No Anger
These qualities pay off. In all her years of plugging she says she can't recall any major incident when a member of Congress has "blown his top" or been unreasonable with an operator.

"Of course there are times when it's impossible for some reason or other for us to get a call through right away, and a man gets a bit anxious," Miss Thomas explained mildly. "We understand the pressures and some of the problems behind their attitudes. We try to be as helpful as possible."

At home—she was born in Washington—Miss Thomas shares a cat with neighborhood friends. "I hate to eat alone so we get together and pool whatever we have for meals occasionally too," she said.

Fond of music all her life, Miss Thomas, a soprano, has been singing with Our Lady Queen of Peace Church choir for the past four years. She also takes piano lessons. Chopin is her favorite composer. "My music is all I have time for after the hours I put in on the Hill, but I consider I have a most interesting and satisfactory life," she says.

HE SEES 'EM

FOND DU LAC, Wis. (AP) — Michael McNulty, 102, likes jig-saw puzzles. "There aren't many 102-year-old men around who can do them with their glasses off," he says.

The 37-voice Collegiate Choral, of Hesston College, Hesston, Kan., will present a program of sacred music at the Centenary Evangelical United Brethren Church, Biglerville, Monday evening at 7:45 o'clock, under the direction of Prof. John P. Duerksen, head of the Music Department of the college.

The choral has been trained in the singing of sacred music. The names of such masters as Bach, Handel, Palestrina and Schreter, as well as contemporary composers, Noble and Christiansen, appear on the program. Several spirituals are also listed in the repertoire.

The choral is giving twenty-four programs in Iowa, Illinois, Indiana, Ohio, Pennsylvania, Missouri and Kansas during the Easter vacation. This Biglerville program is being sponsored by the Bethel Mennonite Church, Mummansburg. The public is invited.

AUTHOR BEGAN IN SECRET SERVICE

The Associated Press

Probably the only author in this country to get his start in writing by having the Federal government tell him to go ahead and write is Harry Edward Neal.

He probably has a unique combination of jobs, too: By day he's executive aide to the chief of the United States Secret Service. By night, and over the weekends, he whips out his typewriter and does stories and articles for the big-time magazines. A few years ago he produced his first book, "Writing and Selling Fact and Fiction," and how he has had his second published, a juvenile, "The Story of the Kite" (Vanguard).

It's a far cry back to his office job, at which on occasion he has guarded Presidents or run down counterfeiters. He keeps the two kinds of work separate, but it was the Secret Service post which

edged him on, or over, into writing. A native of Pittsfield, Mass., he entered the Secret Service as a stenographer. After tours of duty in Albany and New York, N. Y., he was transferred to Washington, and it just happened, he says, that they wanted office reports written and "they just told me to write them."

Took Courses

"If I was going to write," he decided, "I should learn something about professional writing, so I took a night course at American University." In another course in creative writing, he did a short story and sold it for \$20. All excited, he wrote more, in fact 88 more, before he made even one more sale. Now he's had 15 or so of them, and several times as many articles, in print. Having tried a historical novel, which didn't pan out, he has started an-

Atomic Age Returns Caveman To Fashion

ANN ARBOR, Mich. (AP) — Two stone and steel caves have been built at the University of Michigan for 20th century cavemen: those who work with the atom and its energy.

Two rooms, with concrete ceilings four feet thick, have doors weighing nine tons each, windows three feet thick. The whole structure is lined with three-eighths of an inch of steel plate.

The rooms are dwarfed by a par-

other juvenile.
"A couple of hours at my own desk every night after a day at a government desk isn't easy," he says. "But I must enjoy it or I wouldn't do it. And if I didn't do it, I know I'd miss it. It's really relaxation."

ent structure, which will house a million dollar atomic reactor. From the reactor and Atomic Energy Commission plants will come radioactive materials for experiments.

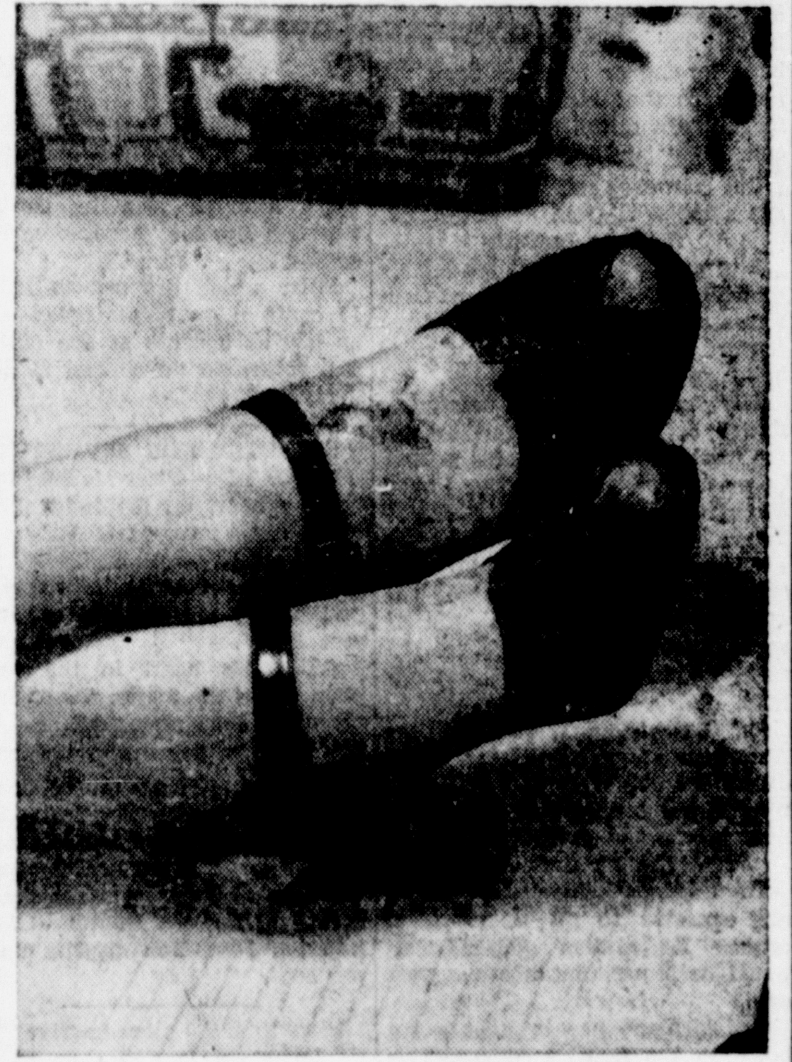

Scientists will stand outside the caves, where radiation will be weaker than that of an illuminated wrist watch dial. They will maneuver mechanical arms, so delicately contrived they can write or peel a banana—or handle "hot" atomic pots and pans and test tubes. In house-clearing after tests the mechanical arms will sweep scraps into lead

containers to be carried away and deposited in a safe place. The wall will be washed down with hoses to remove other radioactivity. A special paint will make the job easier.

MORE FLOWERS THAN EVER ARE BEING USED NOW

By SAM DAWSON
NEW YORK (AP)—Easter is the season of flowers. Millions of blooms crisscross the nation and span the sea. They pour into the cities by train, truck, ship and plane. This is the flower growers' top season, followed by sales for Mother's Day and Christmas.

This year, the florists predict, will see the greatest number of blossoms ever to deck the churches and homes of people of many lands. For weeks, growers have been forcing or pinching back the plants so that blossoms will spring forth like a miracle for this week-end.

Cut flowers and potted plants are shipped in from distant fields.

A Major Industry
Bermuda and Hawaii send their offerings, along with those of California and parts of the South where flower growing for the various holidays is a major industry.

The practice of teletyping flower orders has spread around the world, with some 18,000 florists in more than 100 countries linked through a clearing house device known as Interflora, of which the American affiliate is the Florists' Telegraph Delivery Assn. The clearing houses where the florists settle their accounts are in Detroit, London and Zurich, Switzerland.

Ed Ludwig, president of the American group, says telegraphed orders for Easter flowers are running 7 per cent ahead of a year ago.

Use Air Service
Total flower sales this Easter are expected to set a record at around 100 million dollars. This would be 5 per cent above a year ago.

The airplane has brought a big boost to the floral business. This year it is booming. Pan American

Johnnie Collects For Smashed 'Cycle

NASHVILLE, Tenn. (AP)—Four-year-old Johnnie Warden was pedaling his tricycle across a street when a car with a Georgia license plate hit him.

The motorist got out and found the boy was not badly hurt. The tricycle, however, was ruined. The motorist offered Johnnie a dollar.

"A dollar isn't enough," Johnnie said.

After further negotiation, the boy finally settled for \$2 and the motorist drove off.

Police, who described the incident, are seeking the motorist on a hit-run charge.

Governor's Plea Ends Price War

SALT LAKE CITY (AP)—Northern Utah's milk price war ended last night after a plea by Gov. J. Bracken Lee for "negotiation rather than . . . force."

Milk, which dropped to 10 and 12 cents a quart yesterday—even as low as 5 cents at one outlet—will return to its normal 21 cents today.

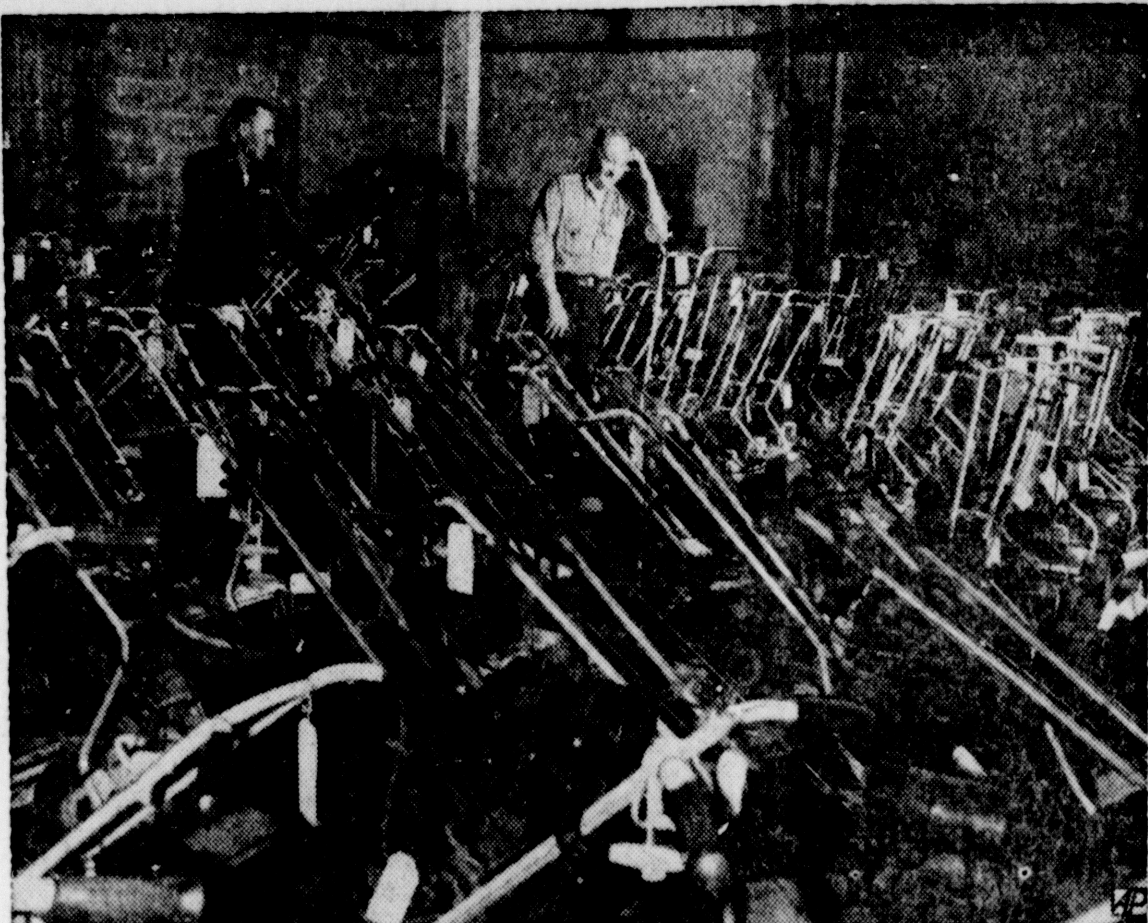

STRICTLY FOR SERGEANTS
OMAHA (AP)—Peter Molland has a healthy heart on the right side of his chest, says Maj. Robert F. Clock, armed forces medical officer. He has dextrocardia in which the position of the internal organs is reversed.

"With his heart in the wrong place," says the major, "he ought to make a dandy sergeant."

World Airways says the volume of Easter flowers flown from Bermuda, Puerto Rico and Honolulu has increased 20 per cent this year.

Eastern Airlines reports air shipments of flowers from the South into the New York area is up 15 per cent.

More than 600 planes arrive from or depart to foreign countries at U.S. airports each day.

SUMMER'S COMING — It's lawnmower tune-up time at Prophetstown, Ill., as experts look over machines that have been returned to the manufacturers for annual service check.

FEW WOMEN TO WEAR EASTER "EXCLUSIVE"

When America's well-dressed women step out in the Easter parade, few, if any, will be wearing one-of-a-kind costumes, whether they paid \$25 or \$1,500 for them.

The recent embarrassment over the almost identical dresses of Mrs. Dwight D. Eisenhower and Mrs. Durrus Crane at a Washington tea points up the fact that in today's world of mass-produced fashions the First Lady is no more certain than Judy O'Grady that she won't meet herself walking down the street.

The dresses worn by Mrs. Eisenhower and Mrs. Crane were turned out by the New York wholesale firm of Parnis-Livingstone, a husband-and-wife team. Mollie Parnis has designed most of the First Lady's clothes since her return to America. But neither Mrs. Eisenhower nor Miss Parnis makes any pretenses that the dresses are exclusive. Some 90 copies of the current dress were made, to retail at about \$110. Usually at least 200 dresses are cut in each style shown by a wholesale dress firm. These are sold to various stores around the country, each usually ordering a full range of sizes in each style.

The day of one-of-a-kind fashions, designed for and worn by one woman only, has been past for some time. Paris custom designers create a group of new fashions each season, and show the models to selected groups of private customers and commercial buyers. The commercial buyers usually pay a sizable fee for the privilege of seeing the collections, and then buy models to be copied by their own firms. Thus the \$1,000 Paris suit soon is being turned out by American manufacturers in mass production to sell for \$50 to \$100.

Raise in Navy Pay Helps Norfolk Trade

NORFOLK, Va. (AP)—Norfolk business houses have more than a passing interest in proposed revised pay scales for the Navy. They figure if the increases go through more than \$8,000,000 in pay and allowances may come into this area annually.

The Navy estimates its shore-based activities here had a payroll of just under \$65,000,000 in 1954. Fleet activities based here were paid about \$92,000,000 more and family allowances ran to \$36,000,000.

THEDA BARA, 65, DIES OF CANCER

HOLLYWOOD (AP)—The first great femme fatale of the movies, Theda Bara, died in a Los Angeles hospital last night of cancer. She was 65.

Although she was born Theodosia Goodman in Cincinnati, film publicists created an exotic background for her to match the sultry, tempestuous screen roles assigned to her by producer William Fox. They said she was born in the shadow of the pyramids, the descendant of kings of Egypt; that her last name was Arab, spelled backwards.

Her name was magic at the box office. She was the original "vamp" of silent films, an irresistible lure to her screen lovers, with her heavily mascaraed lids and deep eye shadow, her heaving bosom. Fox's movie empire was founded on her appeal.

Retired in 1932
In private life Miss Bara was the wife of film director Charles J. Brabin. She retired from the movies in 1921 and lived in seclusion. She had undergone surgery for abdominal cancer several times in the last 18 months and had been in a coma since March 26.

Miss Bara came to the movies from the musical comedy stage in 1914, and after a few minor roles Fox selected her to star in "A Fool There Was." It was one of the big box office smashes of the generation. She followed with dozens of

films in which she portrayed the seductive heartbreaker — "The Vixen," "The Tiger Woman," "The She-Devil," "The Serpent of the Nile," "The Siren's Song," "When a Woman Sins," "Rose of Blood." She was starred in "Carmen" in rivalry with another studio which starred Geraldine Ferrar in the same role.

It has often been said that informed people are free people . . . are slow to panic, difficult to fool and enslave. So it is good to know that this year Americans are thoughtfully turning the pages of 350,000,000 books drawn from public libraries alone. Each goes out from its little niche in the treasure house . . . leaves its imprint on a free mind . . . and returns to its niche ready for the next American who wants to know. So long as this goes on we can feel more sure of the strength and the wisdom, and the freedom of America.

mile track was not completed until 1876. During its first year of operation the road's single train, consisting of one small engine and several cars of American design, carried 300,000 passengers. Chinese came from far and wide to see and ride on this barbarian monstrosity which, according to superstitious fears, was expected to produce war, pestilence and famine.

At the end of the first year, the Chinese government stepped in and ordered abandonment of the little road. Justification for the act lay in the fact that aliens could have no rights in real property without a government grant. In this case, no grant had been issued. As a compromise arranged by diplomats, the Chinese government purchased the railroad from its builders. When the final payment was made in 1878, the rails were torn up and, along with all of the rolling stock, were loaded onto a boat, sailed out to sea and sunk in one of the harbors of Formosa.

There was only one railroad ticket agent on duty when Ellis Island, entry point for immigrants for sixty-two years, closed

last November. The agent, Benjamin Sprung, sixty-two years old, had served on the island for forty-seven years. During the peak years of immigration in the early part of the century, as many as 5,000 potential citizens a day passed through the island gateway to their new home. It then took twenty ticket agents to handle the traffic.

Two subway lines in Paris now boast a bit of glamour. French authorities are experimenting with perfume sprayed throughout the underground railways in hopes of overcoming objectionable odors compounded of garlic, strong tobacco, red wine, axle grease and just plain humanity. If the public approves, scented subways will be the rule throughout the whole system. In approved feminine fashion, each line will have its own distinctive fragrance.

WANT STRONGER LAWS GUIDING PRICE OF MILK

By RICHARD L. GRAVES

HARRISBURG (P)—The top official of the State Milk Control Commission today called for broader powers to cope with dealers who sell milk at prices below commission-regulated minimums.

Joab K. Mahood, chairman of the three-man commission, said legislation should be enacted to put "more teeth" into the milk control laws.

"We have recommended to the administration that some law be enacted allowing the commission to levy cash fines in lieu of revoking a dealer's license," Mahood said. Such action would be aimed at dealers who violate commission regulations on minimum retail prices or other regulations.

Mahood's call for more authority for the commission came as some legislators sought to strip the commission of its powers to regulate milk price minimums.

Gov. George M. Leader, who was highly critical of commission administration during his election campaign last fall, has declared he is "wondering" in his thinking on whether commission regulation of retail prices is "necessary."

Opposes Commission
One bill introduced in the House calls for elimination of the commission's power to fix milk prices altogether. It was sponsored by Rep. John J. Vaughan (R-Allegheny).

At least one Senator, Sen. Elmer J. Holland (D-Allegheny) has promised to seek abolishment of the commission. Mahood explained the commission is seeking the increased authority to strike at "the smaller dealers who step over the traces occasionally."

Under present law, the commis-

To Train Japanese In Industrial Methods

TOKYO (P)—Japan and the United States have agreed on a productivity program. Japanese will go to the United States for industrial training and U. S. experts will come here to train other Japanese.

The U. S. Embassy aid general details were contained in notes exchanged by Ambassador John M. Allison and Foreign Minister Mamoru Shigemitsu.

Twelve Japanese steelmen, representing labor, engineering and management, will leave for the United States in May. They will spend six weeks touring steel plants.

They will be followed by similar groups from Japan's automotive industry, mining, transportation, agriculture.

Meanwhile, three U. S. experts on marketing will come here in midsummer for six weeks. Other groups will follow, including industrial training experts who probably will spend three or four months in Japan.

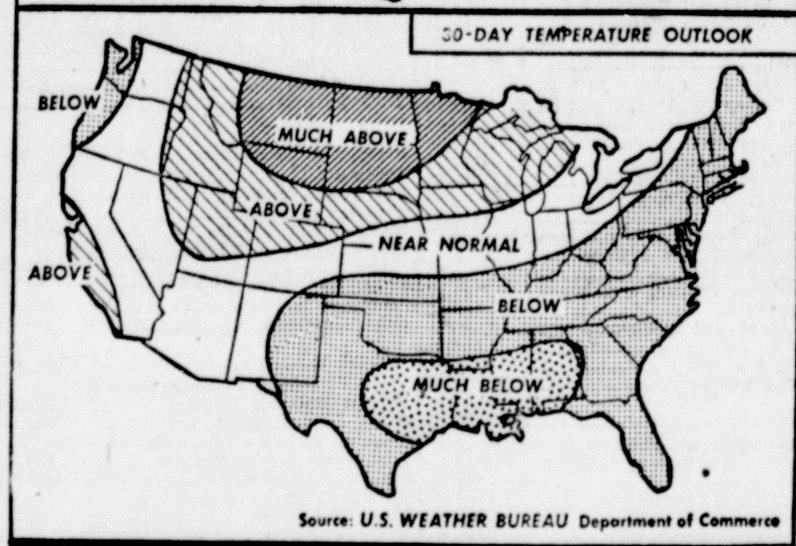

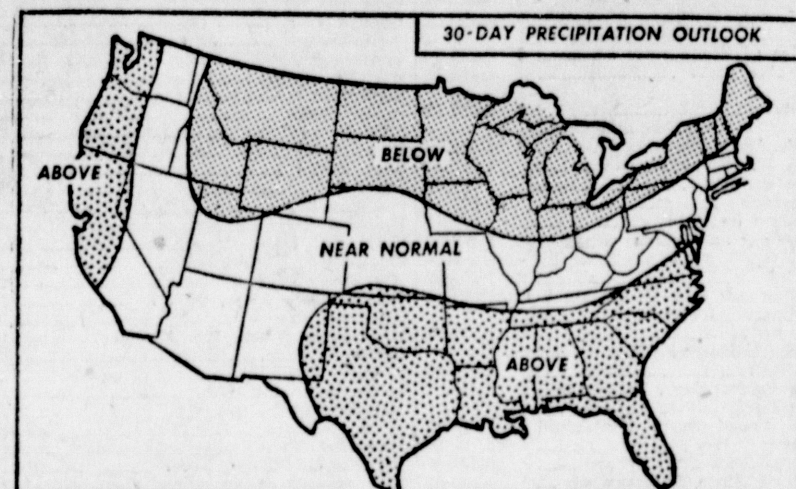

son can levy fines up to about \$300 or revoke a dealer's license. The commission head said a stiff fine would oftentimes serve the purpose better.

Mahood said he hoped a measure could be enacted that would work similar to the state Liquor Control Board's system of taking action against offenders by suspending licenses for infractions, but which in effect allows them to "buy back" the days of the suspension term at a fixed rate for each day.

Can Be Self-Sustaining
At the same time Mahood said that if the Legislature passes a bill now in the House Agriculture Committee the Milk Commission could become self-sustaining.

The bill would raise license fees for milk dealers to bring in about \$300,000 to the commission. Under the current law some dealers can be licensed for as little as three

dollars. The top fee is \$3,500.

"About two thirds of our functions are paid for by license fees," Mahood said. "With the increased license fees we could become self-sustaining."

In seeking to boost the commission's authority, Mahood said the commission is also seeking to increase the number of its investigating agents by six. At present there are eight agents responsible for enforcement of milk laws throughout the state.

Mahood said the commission has attempted to stiffen the present laws by taking a firm stand against violators.

"I think we have been more successful in the last year or so than in previous years," Mahood declared. "We made a determined stand."

Tennessee Policeman Sews A Fine Seam

MEMPHIS, Tenn. (P)—M. D. Walker stands 6 feet 2, weighs 215, packs a pistol—and sews a fine seam. Ask 6-year-old Barbara Jo Walker where she got her pretty dresses and she'll reply, "Daddy made them."

Walker, a state highway patrolman, says it started two years ago when he got his wife a sewing machine. Mrs. Walker didn't take to sewing but the big officer did and since then he's made about three dozen dresses for Barbara Jo and several for his wife.

PRIME MINISTER EDEN MEETS WITH CABINET

By EDDY GILMORE

LONDON (P)—Prime Minister Sir Anthony Eden met with his Cabinet Thursday for the first time since he took over leadership of the British government from Sir Winston Churchill.

Eden walked across to No. 10 Downing St. from the Foreign Office to the cheers of a small crowd which had been awaiting him. A light rain was falling, and he was bareheaded, but he acknowledged the cheers with a wave of his hand.

His summons, issued before any Cabinet changes were announced, was taken in some quarters to mean that he planned to retain most—if not all—of the ministers that served under Churchill.

The British Press Assn. speculated, however, that he would soon reshuffle the government to bring in younger blood.

Changes Imminent
"The feeling was that changes were imminent," said the BPA, which is usually well informed on such matters. "The belief is that Sir Anthony will fight the general election with a much changed and more than usually youthful government."

One big question still was whether Eden would give up the foreign ministry before the general election he is expected to call soon, and who would get the job.

Horses Are Vehicles, Kansas Court Says

PARSONS, Kans. (P)—A \$50,000 damage suit puts this problem to a Cherokee County jury: To what extent must a riding horse be fitted out with head and tail lights?

The suit was brought by Jack Conrad, who was hit by a truck while cantering down a highway. The defense noted Conrad's horse had been unlighted after dark.

When a lower court struck out this part of the defense contention as irrelevant, the Kansas Supreme Court reversed the decision. It sent the case back for trial, asserting that horses are "vehicles" in the legal sense and subject to rules of the road.

CLOSE SHAVE

NEW SMYRNA BEACH, Fla. (P)—Members of the Kiwanis Club started raising beards for a historical pageant but gave it up after a few weeks.

Explained club president Lee Freeman: "I got to sleep 10 minutes more in the morning but the remarks my wife made more than offset that luxury."

SNAKES ALIVE!

EVANSVILLE, Ind. (P)—"When I was a girl," says 80-year-old Grandma Louise Herron, "we used to kill snakes and raise chickens." That is her reaction to grandson Mike Herron's raising of chickens to feed his two 5-toot pet boa constrictors which he keeps in his basement. The boas are thriving, says Mike, 13.

MOST HEADS OF GOVERNMENTS ARE MANAGERS

By JAMES MARLOW

Associated Press News Analyst
WASHINGTON (P)—Sir Winston Churchill had become such a symbol of Britain it was almost as if he owned the place. Sir Anthony Eden, his successor as prime minister, is more like a manager.

That impression of Eden is not unfitting in the second half of the 20th century. Someday, unless there are big changes, it may be called the era of the managers.

In the first half some heads of government acted strictly like owners. They came to mind easily enough: the Kaiser, the Czar, Lenin, Stalin, Hitler, Mussolini.

As this century gallops into its last lap the heads of all the big governments—that includes Russia, with qualifications—seem more like managers than proprietors.

That parallels what has happened in industry, where almost

all the big individual owners are gone. The giant corporations now are in the hands of managers chosen by the stockholders through their boards of directors.

In Hands Of Voters
Churchill, as head of a democratic country, could have been tossed out any time by the voters. So he was never more than a manager either. But by his massive personality he seemed to embrace all Britain.

Eden will appear less dominant than Churchill. He lacks the old man's emotional range: the magnificent oratory, the sense of fire, the whimsy, the thundering scorn, the growl, the almost indestructible physical power.

Eden, more fragile physically, is not a distinguished speaker. But he has brains and, apparently, a lot of shrewd, common sense. His whole mature life, part of it under Churchill's wing, has been a preparation for his new job.

PALESTINE, Tex. (P)—They caught a horse thief here recently and even back when hanging on the spot was the penalty, the culprit probably would have got off with a good spanking. He was just 7, and took the broncho for a spell of riding the range.

Finest Hour of the Twenty-Four!

He's traveling his favorite highway behind the wheel of his favorite car—and he's about an hour out from his destination.

What a happy prospect for a happy hour!

Imagine, for instance, the marvelous rest and relaxation it will bring him.

He'll just sit there with his hands resting gently on the wheel... cradled by those deep, soft cushions... and with the soft sound of the wind for a lullaby.

And insofar as his driving is concerned—well, what could be more restful! The car's every movement will be regulated by the merest touch of toe and hand. Steering, for instance, will be little more than a gesture... and braking will require only the gentlest pressure on the pedal.

And what a wonderful time it will be to think and plan! For his mind will clear and his spirits will rise with each passing mile.

Yes, he's about to enjoy one of the *finest* hours of the whole twenty-four—and it may even be one of the most *profitable*!

In fact, many of America's foremost executives will tell you that some of their wisest business decisions have been made at the wheel of a Cadillac.

As you might have gathered, you've been missing out on something wonderful if you haven't treated yourself to an hour in a 1955 Cadillac.

That's why we say—come in soon and take a "sixty-minute vacation" in the "car of cars."

The keys are waiting for you—and you'll be welcome at any time.

Five years ago you left me
 Your dear face no more to see
 But my thoughts are full of memories
 And in my heart you'll always be.

God gave me strength to hear it
 And courage to fight the blow,
 But what it meant to lose my husband
 No one will ever know.

 I think of you as I used to do,
 You were so faithful, kind and true,
 How happy the years I spent with you.

U.S. ABOLISHES 90-DAY JOB OF EDWARD CORSI

By LEE GARRETT

WASHINGTON (AP) — The State Department is abolishing the job it gave only three months ago to Edward J. Corsi, who since has become the target of repeated attacks by Rep. Walter (D-Pa.).

Corsi confirmed last night that he is being dismissed, effective Sunday, as special consultant to Secretary of State Dulles on refugee and immigration problems. He said he was told Wednesday the job was "a temporary one" and that it was not being renewed.

"I would not have taken the job to begin with if I had known it was a 90-day appointment," Corsi said.

Walter and Corsi have differed sharply on basic immigration policy, but Walter has based his attacks largely on charges that Corsi had associated with Communism.

dominated groups. Corsi has strongly denied the allegations. Corsi said he was notified of his dismissal by Asst. Secretary of State Loy W. Henderson, who he said "wanted me clearly to understand that this situation is not a matter of security."

Investigation Incomplete
State Department officials confirmed this and said they have not completed their investigation of Corsi's background and the charges Walter has made. At his home in Easton, Pa., Walter said he had no comment on the development.

Corsi said he was told he would be offered another unspecified post in the State Department, "but I have not made up my mind whether I care to continue or not."

Corsi was appointed by Dulles especially to speed up the refugee immigration program. The law authorizes special admission for 214,000 immigrants by the end of 1956, but only about 22,000 have been given visas to enter the United States since the program became effective 17 months ago.

Walter's latest attack came last Monday, when he said he had "documentary evidence" of the

charged he had made. He accused Corsi also of pledging himself to "junk" certain immigration laws and of "calling legislators—in effect—Nazis and candidates for an insane asylum" for their support of such laws.

Walter is the co-author in the McCarran-Walter immigration law which he said Corsi thus attacked in 1952.

Pulling Egg From Gas Tank Is No "Yoke"

WOOD RIVER, Ill. (AP) — Coaxing an egg out of a gas tank of an automobile is about as tough as putting toothpaste back into a tube, but Ray Esterlein did it. Someone dropped an unbroken egg into the gasoline spout of his car, and it remained undetected until a filling station attendant discovered it.

The egg was lodged six to seven inches down the spout and had to be removed intact or it would foul up the engine. A piece of adhesive tape on the end of a prod failed.

A bent wire finally did the trick, but Esterlein says it was an exhausting job.

called out Tuesday evening to extinguish a fire at Joe Hoke's barn. Slight damage was reported.

Mrs. Agnes Garner was removed to the Warner Hospital in the Emmitsburg ambulance Tuesday afternoon.

Trooper and Mrs. Donald Tucker recently spent several days in Virginia.
